PROFILE SUMMARY

Frontend Developer with practical experience building responsive and interactive web applications using HTML, CSS, JavaScript, and React. Developed end-to-end projects including a Clinic queue management system, Modern e-commerce platform, and Smart expense tracker, demonstrating strong problem-solving skills and attention to user experience. Seeking an opportunity to contribute to impactful products while growing as a software professional.

TECHNICAL SKILLS

Frontend Development - HTML5, CSS3, JavaScript (ES6+), React.js, React Hooks, React Router, Context API

Tools & Technologies - Git, GitHub, REST APIs, Local Storage, JSON, Vercel, VS Code

Core Frontend Concepts - Responsive Web Design, Component-Based Development, State Management, DOM Manipulation

Programming Languages - C, C++, JavaScript(ES6+), Python

PROJECTS

ClinicQ – Clinic Queue Management System | [[GitHub](#)] | [[Live Demo](#)]

Tech Stack: React.js, JavaScript, React Router, CSS3, Local Storage

- Developed a clinic queue management system to streamline patient flow and improve queue visibility for healthcare staff.
- Built patient management and queue tracking modules for monitoring appointments, patient status, and waiting times.
- Implemented a dynamic notification panel that displays queue updates, patient progress, and queue completion alerts based on system activity.
- Designed a responsive dashboard interface focused on improving operational efficiency and user experience within clinic environments.

NovaCart – Modern E-Commerce Platform | [[GitHub](#)] | [[Live Demo](#)]

Tech Stack: React.js, JavaScript, React Router, Context API, REST APIs

- Developed a responsive e-commerce user interface featuring product browsing, cart management, and wishlist functionality.

- Fetched and displayed dynamic product data from external APIs across multiple product categories.
- Implemented Context API for efficient state management and React Router for seamless navigation.
- Designed a modern shopping experience with a focus on usability, responsiveness, and clean UI design.

SpendWise – Smart Expense Tracker | [[GitHub](#)] | [[Live Demo](#)]

Tech Stack: HTML5, CSS3, JavaScript, Local Storage

- Built a personal finance management application for tracking expenses, monitoring budgets, and visualizing spending patterns.
- Implemented expense categorization and budget tracking features to improve financial awareness and expense management.
- Utilized Local Storage to maintain user data across browser sessions and provide a seamless user experience.

Personal Portfolio Website | [[GitHub](#)] | [[Live Demo](#)]

Tech Stack: HTML5, CSS3, JavaScript

- Designed and developed a personal portfolio website to showcase technical skills, projects, and professional achievements.
- Implemented responsive design principles to ensure a consistent experience across desktop, tablet, and mobile devices.
- Deployed and maintained the application using Vercel with a focus on clean design and usability.

EDUCATION

Master of Science in Computer Science

University of Bedfordshire, London, UK | Dec 2023

Bachelor of Science in Computer Science

Mahatma Gandhi University, Kerala, India | 2021
